Day 05 | Wednesday

November 4, 2026

05

Fractions and inch-tape markings

9:00 AM–10:15 AM • Math • 75 min

Tape and rule reading practice

10:30 AM–12:00 PM • Math • 90 min

Week 2 • 2 scheduled blocks • 165 teaching minutes

Estimate. Show the method. Label units. Check the result.

Today’s exact schedule

9:00 AM–10:15 AM • 75 min

Fractions and inch-tape markings

9:00 AM–9:05 AM	**Start**	5
9:05 AM–9:10 AM	**Recall**	5
9:10 AM–9:25 AM	**Teach**	15
9:25 AM–9:40 AM	**Together**	15
9:40 AM–10:00 AM	**Practise**	20
10:00 AM–10:10 AM	**Check**	10
10:10 AM–10:15 AM	**Wrap up**	5

Math • Math Week 2, Lesson 5

10:30 AM–12:00 PM • 90 min

Tape and rule reading practice

10:30 AM–10:35 AM	**Start**	5
10:35 AM–10:40 AM	**Recall**	5
10:40 AM–10:55 AM	**Teach**	15
10:55 AM–11:10 AM	**Together**	15
11:10 AM–11:45 AM	**Practise**	35
11:45 AM–11:55 AM	**Check**	10
11:55 AM–12:00 PM	**Wrap up**	5

Math • Math Week 2, Lesson 6

Break: 10:15 AM–10:30 AM • 15 minutes • excluded from teaching time

Fractions and inch-tape markings

Today’s goal: Read inch graduations, reduce fractions and compare fractional lengths using a common denominator.

Name one use for today’s skill.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Exercise Book 4A Q1–4 (p.25), Q6–11 (p.26)

Keep your notebook, textbook, exercise book and chosen calculator ready.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Recall and reconnect

Try to locate 1/2, 1/4 and 1/8 on an inch rule; use Exercise Book 4A Q1 to check fraction vocabulary.

Try first without displayed answers.

Resources: Exercise Book 4A Q1–4 (p.25), Q6–11 (p.26)

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Recall from the Exercise Book | 4A Q1

What fraction of the bar is shaded? Is it a proper fraction?

Write the operation, working and units before checking.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Read an inch as equal spaces

1. Start at zero and find the smallest marked graduation.

2. The denominator tells how many equal spaces make one inch.

3. Count spaces to the mark; the zero line is not the first space.

4. Read whole inches first, then the fractional part.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Rename the fraction without moving the mark

1. The numerator counts selected spaces; the denominator names their size.

2. Divide top and bottom by the same factor to reduce a fraction.

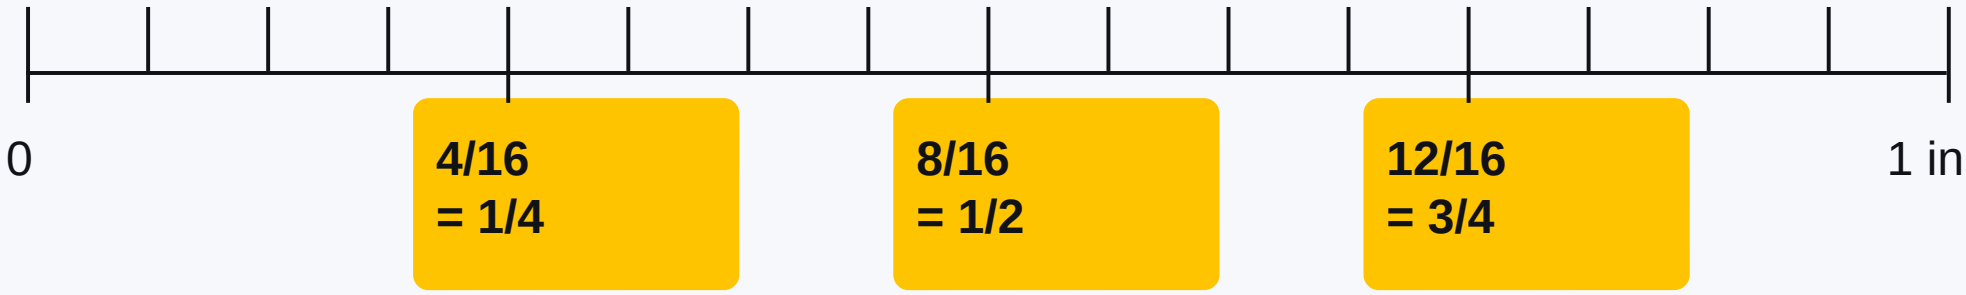

3. Equivalent fractions label the same position on the rule.

4. Use a common denominator before comparing two fractional lengths.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Count spaces, then simplify

Schematic inch rule—not a physical measuring scale.

Six spaces = 6/16 in = 3/8 in

Together: 4A Q3 and Q6–7. Point to each mark and explain equivalent names. Use Numeracy Hub Measuring Tools and an actual rule.

Textbook | page 57

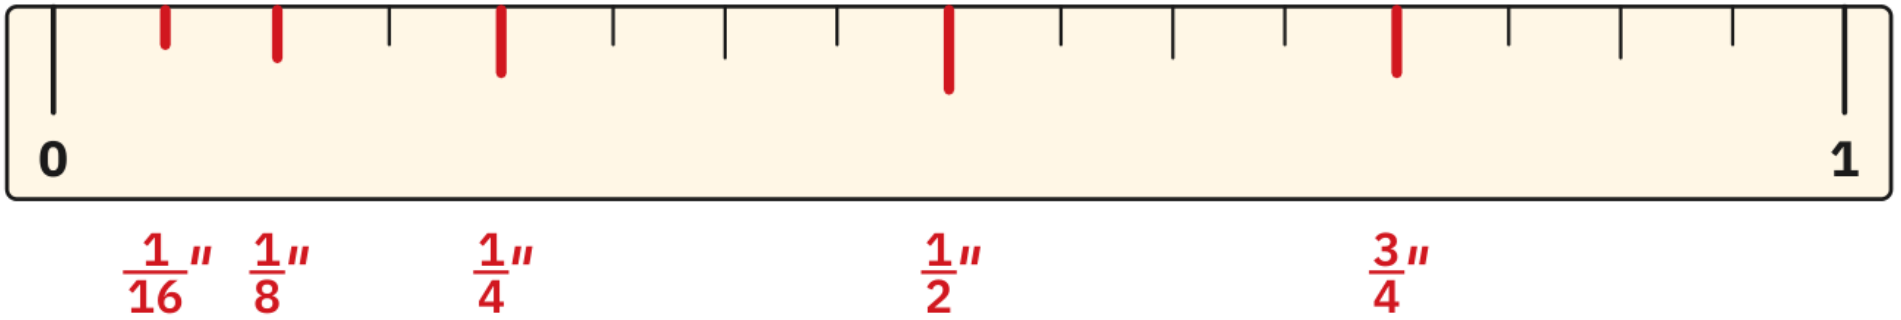

Figure 4.2 One inch split into sixteenths. $\frac{1}{2} = \frac{8}{16}$, $\frac{1}{4} = \frac{4}{16}$ and $\frac{1}{8} = \frac{2}{16}$. The length of each line shows which fraction it marks.

Textbook p.57 · Figure 4.2: one inch divided into sixteenths.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Textbook | page 56

Figure 4.1 One part of each bar is shaded. The bigger the denominator, the smaller each part: $\frac{1}{16}$ in is smaller than $\frac{1}{8}$ in.

Textbook p.56 · Figure 4.1: larger denominators mean smaller equal parts.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Spot the mistake. Explain the correction.

A mark six sixteenth-inch spaces from zero is recorded as 6/6 in. Which part was misread?

Discuss the method before checking the answer.

The denominator describes the rule’s 16 spaces per inch. The reading is 6/16 in = 3/8 in.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Work together

Complete Exercise Book 4A Q3 and Q6–7 with a projected tape/rule. Work with a partner to explain equivalent marks.

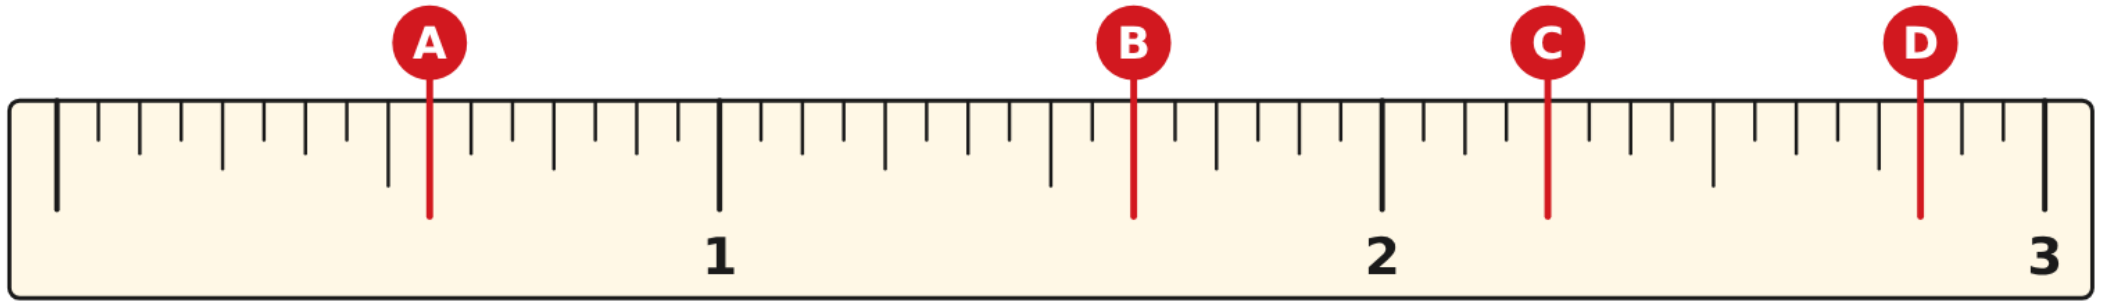

Work in pairs; alternate solver and checker.

Resources: Exercise Book 4A Q1–4 (p.25), Q6–11 (p.26)

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Guided practice | 4A Q3

Read marks A, B, C and D to the nearest $\frac{1}{16}$ in.

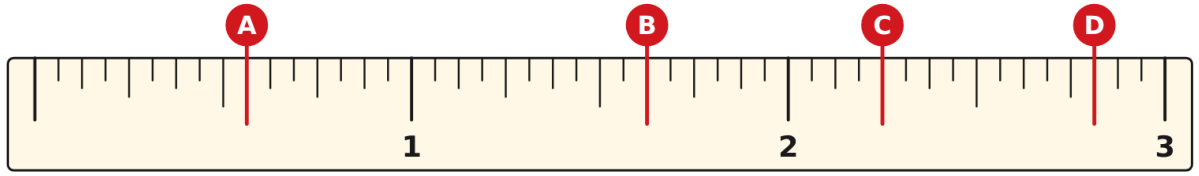

Work with a partner. Take turns explaining the next step.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Compare your method | 4A Q3

Read marks A, B, C and D to the nearest $\frac{1}{16}$ in.

CHECK TOGETHER

A: 9/16 in, B: 1 5/8 in, C: 2 1/4 in, D: 2 13/16 in

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Your scheduled practice

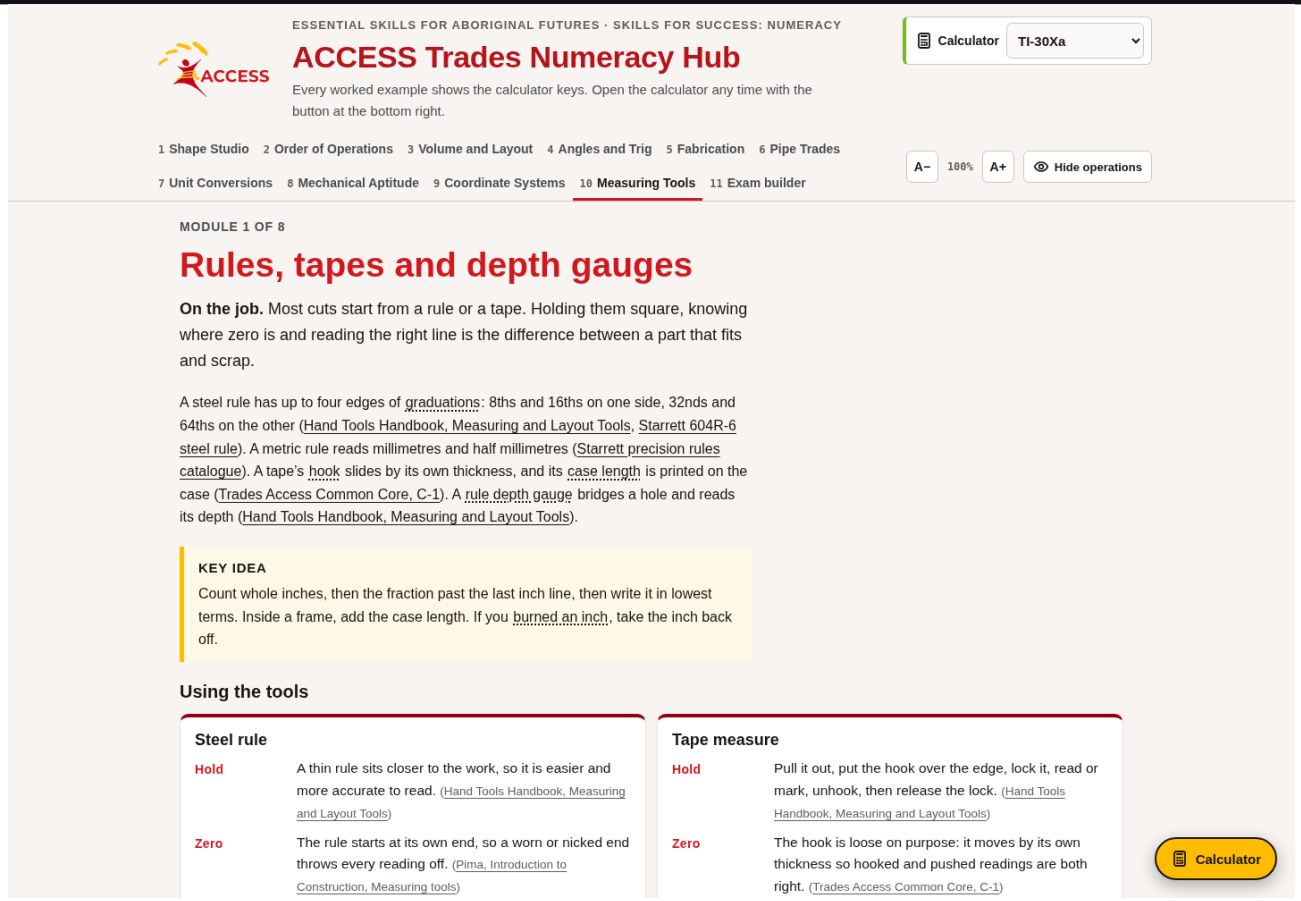

Complete Exercise Book 4A Q2,4,8–11. Read real rule/tape marks and compare them with the Numeracy Hub. Complete assigned Q4 (32nds). Use extra time for guided rereading; additional fine-graduation work is extension.

Show working and units; estimate, then check.

Resources: Exercise Book 4A Q1–4 (p.25), Q6–11 (p.26)

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Open Numeracy Hub

Navigation example. Use the values and units in the assigned task.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Practise in Numeracy Hub and Shape Canvas

1. Supported: Compare a real inch rule with Numeracy Hub Measuring Tools; identify zero and graduation.

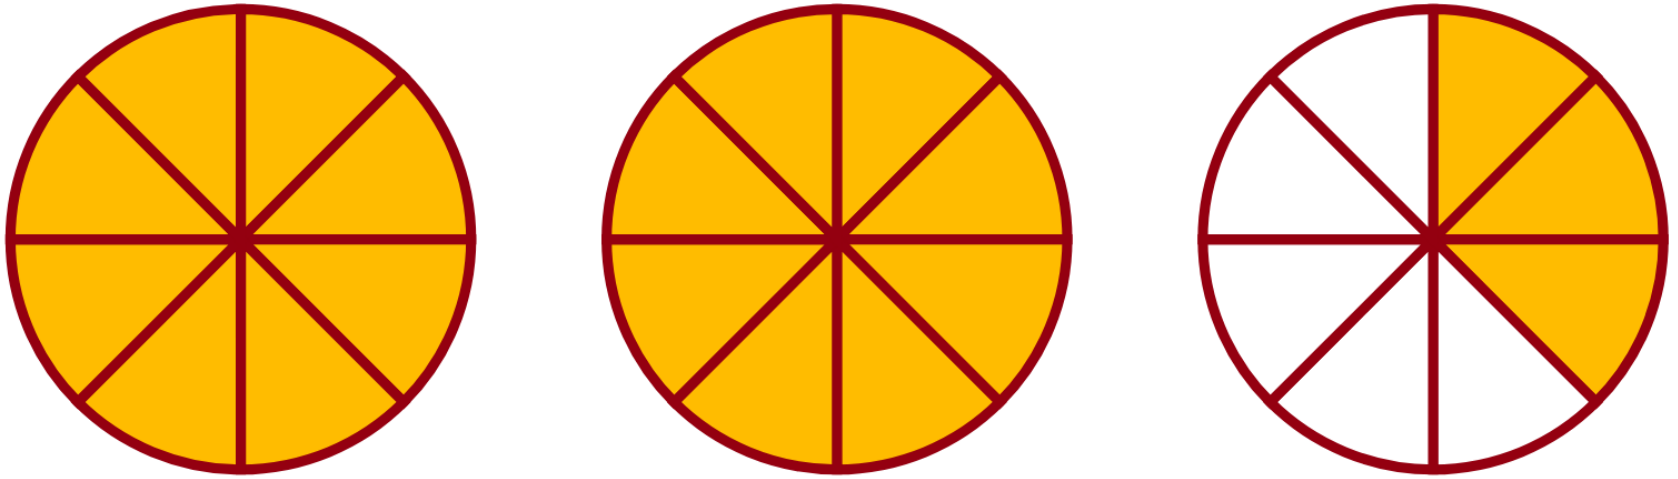

2. Supported: Read 4A Q3 and explain Q6–7; in Shape Canvas use inch dimension labels.

3. Independent practice: Complete the assigned marks and fractions, then compare with tape-reading practice.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Practise from the Exercise Book | 4A Q2

What fraction of the circles is shaded? Write it as an improper fraction and as a mixed number.

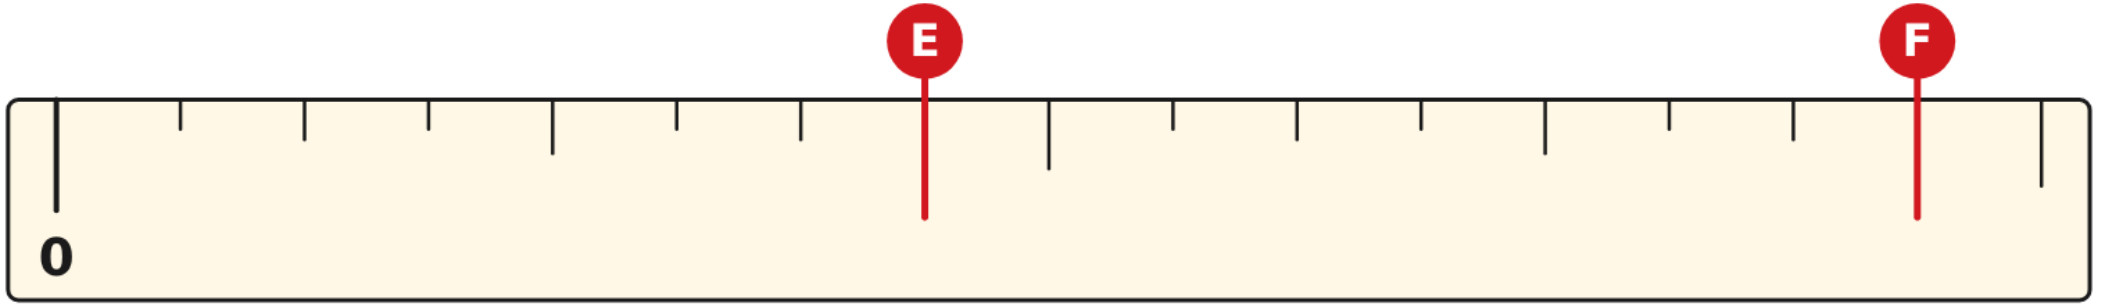

Write the operation, working and units before checking.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Practise from the Exercise Book | 4A Q4

This half inch of a rule is marked in 32nds. Read marks E and F.

Write the operation, working and units before checking.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Check independently

Exercise Book 4A Q6 and Q8; explain which fraction is longer and how much longer.

Answer independently and show the method.

Resources: Exercise Book 4A Q1–4 (p.25), Q6–11 (p.26)

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Independent check | 4A Q6

Write $\frac{14}{32}$ and $\frac{36}{64}$ in lowest terms.

Answer independently. Keep worked solutions closed.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Independent check | 4A Q8

Which is longer, $\frac{9}{16}$ in or $\frac{5}{8}$ in? By how much?

Answer independently. Keep worked solutions closed.

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Wrap up and choose the next step

Share one learning point and one skill to practise next.

Record a takeaway and next action.

Resources: Exercise Book 4A Q1–4 (p.25), Q6–11 (p.26)

Textbook sections 4.1–4.4 pp.56–61; sections 4.5 pp.62–63

Break

10:15 AM–10:30 AM

Return ready for: Tape and rule reading practice

This break is excluded from teaching minutes.

Tape and rule reading practice

Today’s goal: Read inch markings consistently and record each reading in lowest terms.

Name one use for today’s skill.

Textbook Chapter 4 pp.56–59

Exercise Book 4A Q1–4 (p.25); Q6–9 (p.26)

Keep your notebook, textbook, exercise book and chosen calculator ready.

Textbook Chapter 4 pp.56–59

Recall and reconnect

Locate zero, one inch, one half and one quarter; ask what the smallest shown graduation represents.

Try first without displayed answers.

Resources: Exercise Book 4A Q1–4 (p.25); Q6–9 (p.26)

Textbook Chapter 4 pp.56–59

Say the complete reading

1. Locate the whole-inch mark immediately before the point.
2. Count fractional spaces from that whole-inch mark.
3. Combine the whole inches and fraction, then reduce the fraction.
4. Say the whole reading aloud so a partner can check what was recorded.

Textbook Chapter 4 pp.56–59

Let the tool set the precision

1. A rule’s smallest graduation sets the precision you can read.
2. Do not invent finer precision than the marked divisions support.
3. Keep the inch unit with every written reading.
4. When readings disagree, return to zero and count spaces again.

Textbook Chapter 4 pp.56–59

Say the whole reading aloud

Classroom example: a mark is ten sixteenth-inch spaces past 2 in.

2 + 10/16 = 2 + 5/8 = 2 5/8 in

Check the point lies between 2 1/2 in and 2 3/4 in.
“5/8” alone loses the two whole inches.

Together • Read Exercise Book 4A Q3.
One partner points; the other says the whole number and fraction.
Confirm with an actual rule and Numeracy Hub Measuring Tools.

Textbook | page 57

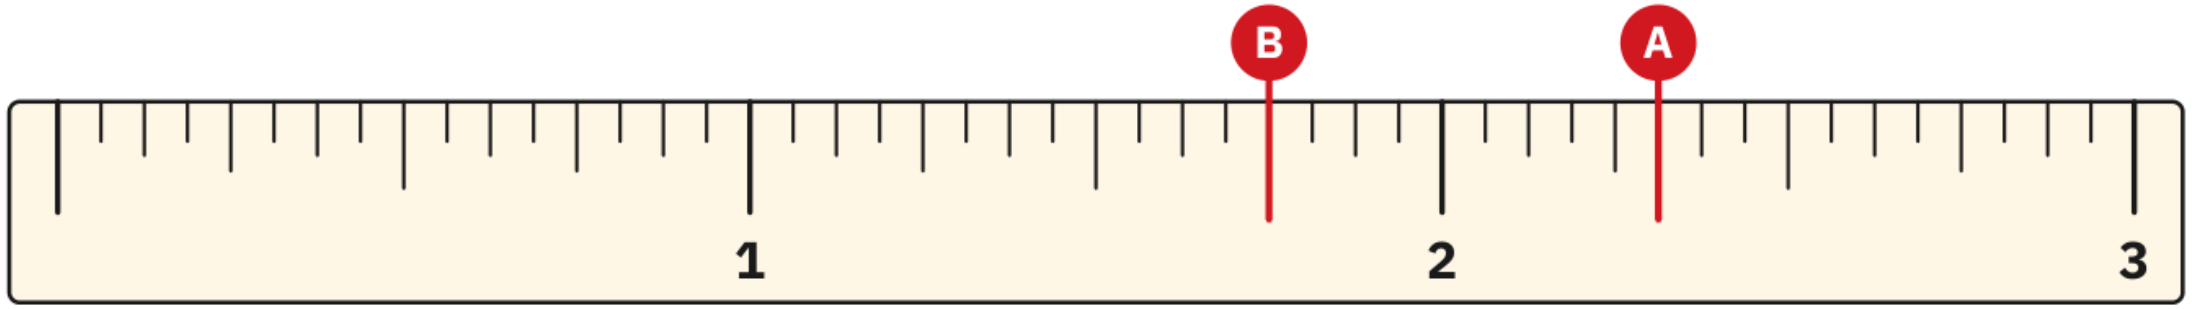

Figure 4.3 A rule marked in sixteenths. Marks A and B are read in Example 4.2.

Textbook p.57 · Figure 4.3: read whole inches, then fractional spaces.

Textbook Chapter 4 pp.56–59

Textbook | page 58

Example 4.2 Reading marks A and B

Read marks A and B on the rule above.

SOLUTION

1. A: the last whole inch line before A is the 2. Count the spaces from the 2 line to A: 5 sixteenths. 5 is odd, so $\frac{5}{16}$ is in lowest terms. A reads $2\frac{5}{16}$ in.
2. B: the last whole inch line before B is the 1. Count 12 sixteenths past it. Divide the top and bottom of $\frac{12}{16}$ by 4 to get $\frac{3}{4}$. B reads $1\frac{3}{4}$ in.
3. Check: B sits on a quarter line, the line for $\frac{3}{4}$.

Answer **A is $2\frac{5}{16}$ in and B is $1\frac{3}{4}$ in.**

Textbook p.58 · Example 4.2: name and simplify the complete reading.

Textbook Chapter 4 pp.56–59

Spot the mistake. Explain the correction.

A point ten sixteenth-inch spaces beyond 2 in is written as 5/8 in. What is missing?

Discuss the method before checking the answer.

The whole inches were dropped. The complete reading is 2 10/16 in = 2 5/8 in.

Textbook Chapter 4 pp.56–59

Work together

Read 4A question 3 together. Partners point to each mark and say the whole number and fraction aloud.

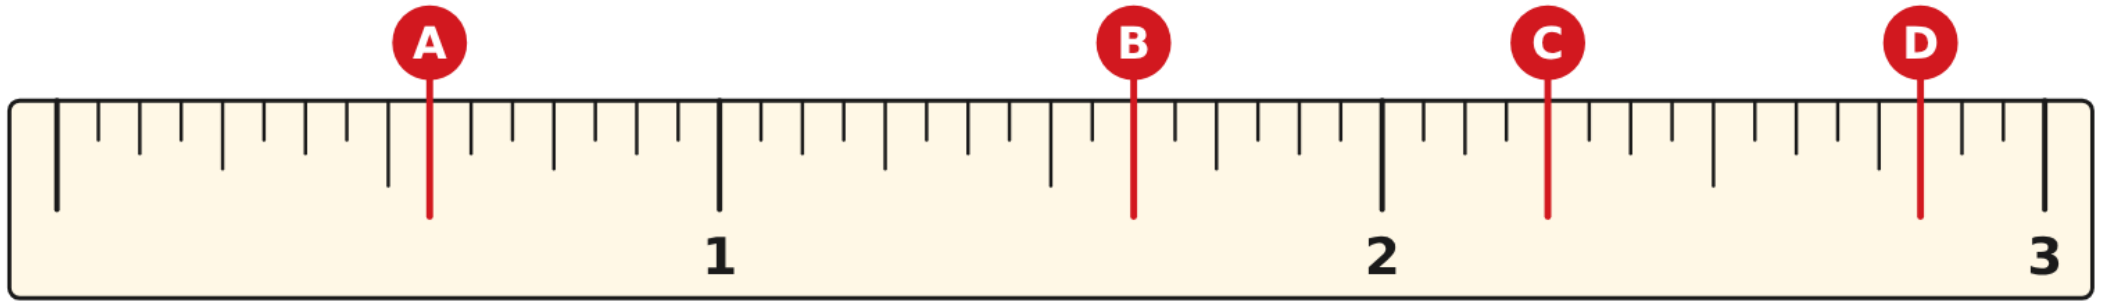

Work in pairs; alternate solver and checker.

Resources: Exercise Book 4A Q1–4 (p.25); Q6–9 (p.26)

Textbook Chapter 4 pp.56–59

Guided practice | 4A Q3

Read marks A, B, C and D to the nearest $\frac{1}{16}$ in.

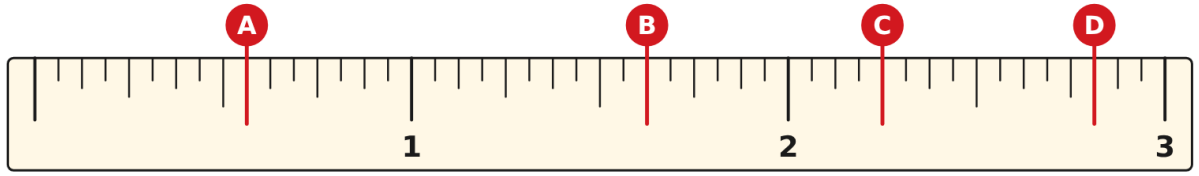

Work with a partner. Take turns explaining the next step.

Textbook Chapter 4 pp.56–59

Compare your method | 4A Q3

Read marks A, B, C and D to the nearest $\frac{1}{16}$ in.

CHECK TOGETHER

A: 9/16 in, B: 1 5/8 in, C: 2 1/4 in, D: 2 13/16 in

Textbook Chapter 4 pp.56–59

Your scheduled practice

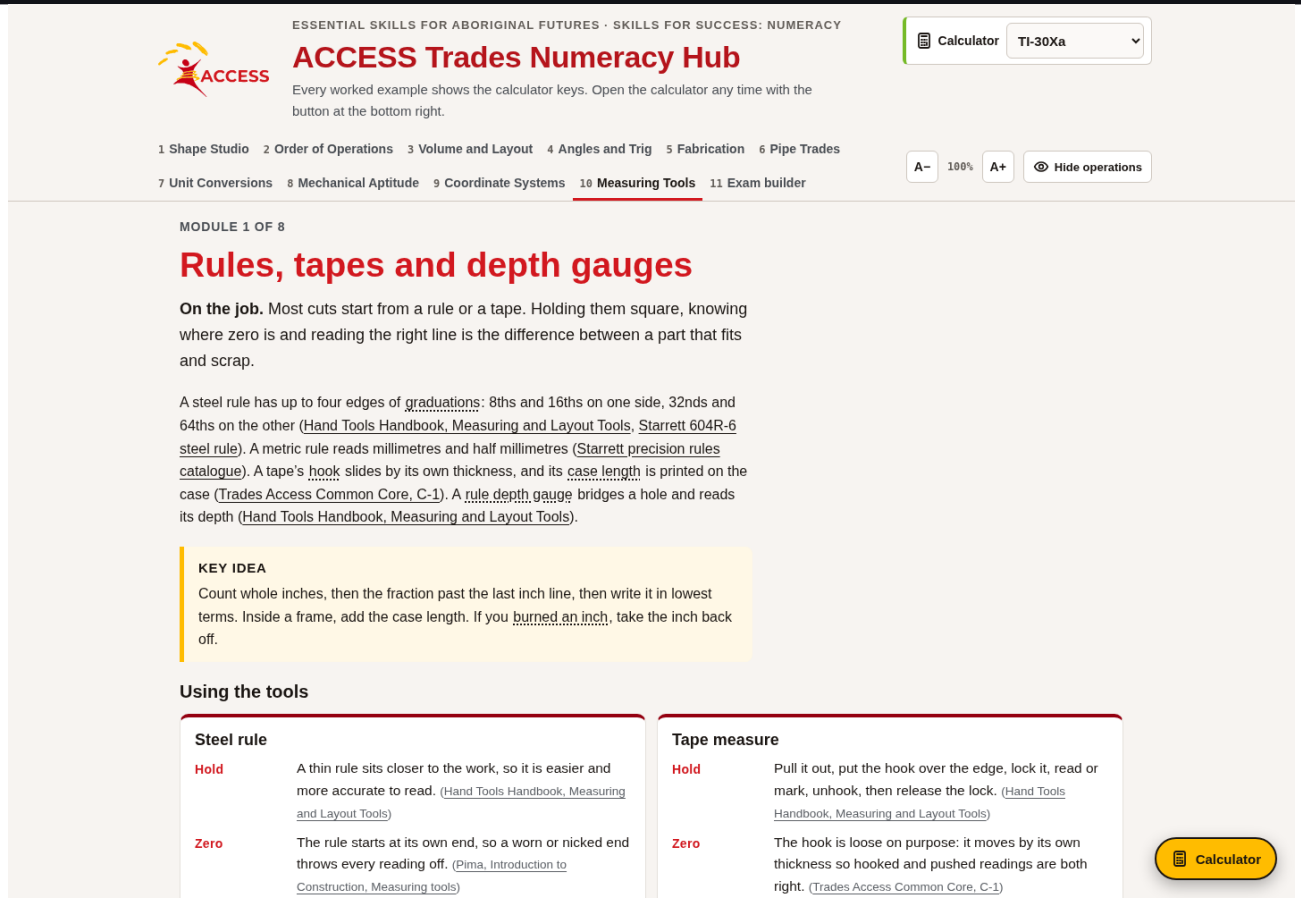

Complete 4A questions 1–4 and 6–9. Partners create four marks for one another to read; verify with the rule and record corrections.

Show working and units; estimate, then check.

Resources: Exercise Book 4A Q1–4 (p.25); Q6–9 (p.26)

Textbook Chapter 4 pp.56–59

Open Numeracy Hub

Navigation example. Use the values and units in the assigned task.

Textbook Chapter 4 pp.56–59

Practise in Numeracy Hub

1. Supported: Use an actual inch rule alongside Numeracy Hub Measuring Tools; locate matching graduations.

2. Supported: Read marks A–D in 4A Q3 aloud with a partner before independent practice.

3. Independent practice: Create four marks for a partner, verify with the rule and record corrections.

Textbook Chapter 4 pp.56–59

Practise from the Exercise Book | 4A Q1

What fraction of the bar is shaded? Is it a proper fraction?

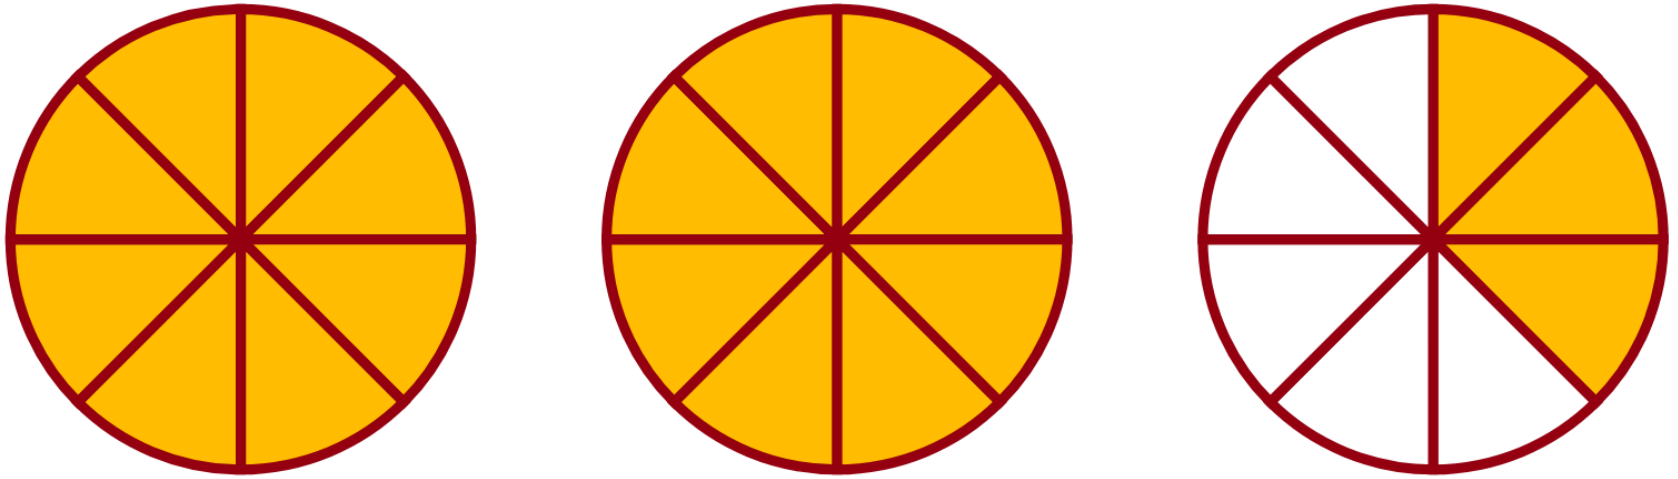

Write the operation, working and units before checking.

Textbook Chapter 4 pp.56–59

Practise from the Exercise Book | 4A Q2

What fraction of the circles is shaded? Write it as an improper fraction and as a mixed number.

Write the operation, working and units before checking.

Textbook Chapter 4 pp.56–59

Check independently

Read marks A–D in 4A question 3 without prompts.

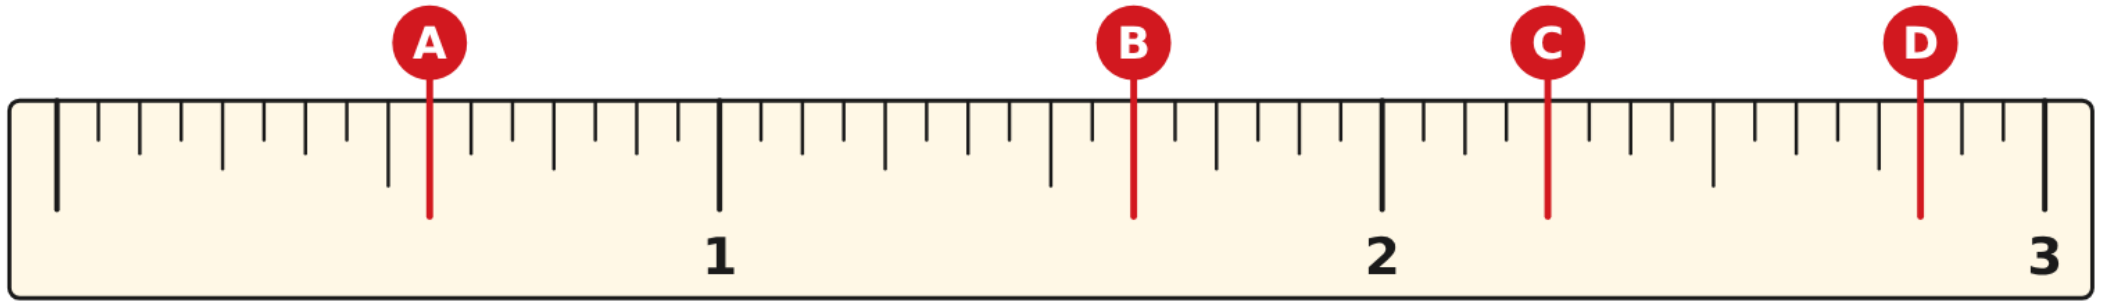

Answer independently and show the method.

Resources: Exercise Book 4A Q1–4 (p.25); Q6–9 (p.26)

Textbook Chapter 4 pp.56–59

Independent check | 4A Q3

Read marks A, B, C and D to the nearest $\frac{1}{16}$ in.

Answer independently. Keep worked solutions closed.

Textbook Chapter 4 pp.56–59

Wrap up and choose the next step

Share one learning point and one skill to practise next.

Record a takeaway and next action.

Resources: Exercise Book 4A Q1–4 (p.25); Q6–9 (p.26)

Textbook Chapter 4 pp.56–59
