Day 07 | Friday

November 6, 2026

07

Marking fractional dimensions

9:00 AM–10:15 AM • Math • 75 min

Fraction foundations checkpoint

10:30 AM–12:00 PM • Math • 90 min

Week 2 • 2 scheduled blocks • 165 teaching minutes

Estimate. Show the method. Label units. Check the result.

Today’s exact schedule

9:00 AM–10:15 AM • 75 min

Marking fractional dimensions

9:00 AM–9:05 AM	**Start**	5
9:05 AM–9:10 AM	**Recall**	5
9:10 AM–9:25 AM	**Teach**	15
9:25 AM–9:40 AM	**Together**	15
9:40 AM–10:00 AM	**Practise**	20
10:00 AM–10:10 AM	**Check**	10
10:10 AM–10:15 AM	**Wrap up**	5

Math • Math Week 2, Lesson 9

10:30 AM–12:00 PM • 90 min

Fraction foundations checkpoint

10:30 AM–10:35 AM	**Start**	5
10:35 AM–10:40 AM	**Recall**	5
10:40 AM–10:55 AM	**Teach**	15
10:55 AM–11:10 AM	**Together**	15
11:10 AM–11:45 AM	**Practise**	35
11:45 AM–11:55 AM	**Check**	10
11:55 AM–12:00 PM	**Wrap up**	5

Math • Math Week 2, Lesson 10

Break: 10:15 AM–10:30 AM • 15 minutes • excluded from teaching time

Marking fractional dimensions

Today’s goal: Transfer a labelled inch dimension to a paper strip and check it with a partner.

Name one use for today’s skill.

Textbook Chapter 4 pp.56–63

Exercise Book 4A Q3 (p.25), Q8–11 (p.26)

Keep your notebook, textbook, exercise book and chosen calculator ready.

Textbook Chapter 4 pp.56–63

Recall and reconnect

Identify what stays the same when a drawing is zoomed. Distinguish dimensions from screen size.

Try first without displayed answers.

Resources: Exercise Book 4A Q3 (p.25), Q8–11 (p.26)

Textbook Chapter 4 pp.56–63

Transfer a written dimension to a strip

1. Choose one start point and align the rule’s zero with it.
2. Locate the whole inches before counting fractional spaces.
3. Mark the position clearly and write the full dimension with its unit.
4. Use the drawing’s stated dimension, even when its screen size changes.

Textbook Chapter 4 pp.56–63

Verify the mark from the beginning

1. Ask a partner to reread the mark from zero without copying your answer.
2. Compare the new reading with the original dimension label.
3. Circle a disagreement before adjusting the mark.
4. Record whether the error came from the start point, whole inches or fractional spaces.

Textbook Chapter 4 pp.56–63

Mark once; reread independently

Classroom dimension: 3 7/16 in

1. Align the rule’s zero with the chosen start point.
2. Find 3 whole inches.
3. Count seven sixteenth-inch spaces.
4. Mark and label; a partner rereads from zero.

Together • Use all four values in 4A Q3 to mark a strip.
Partners verify each mark. In Shape Canvas, use the written dimension labels—not the physical size on the screen.

Textbook | page 57

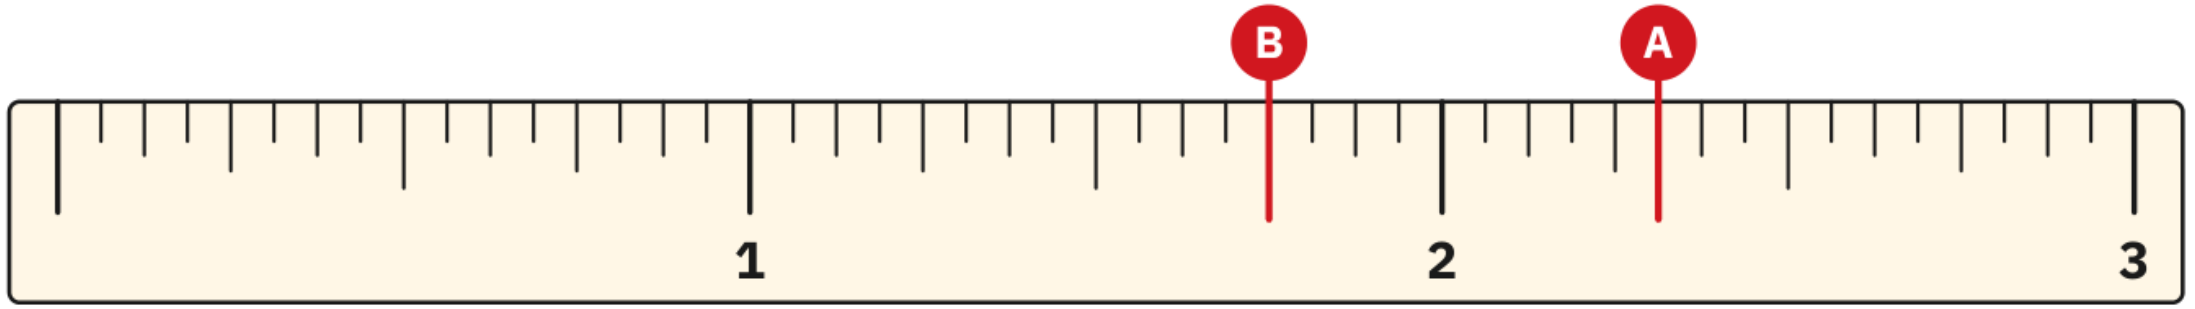

Figure 4.3 A rule marked in sixteenths. Marks A and B are read in Example 4.2.

Textbook p.57 · Figure 4.3: transfer the written measurement, not the screen size.

Textbook Chapter 4 pp.56–63

Textbook | page 57

1. Find the last whole inch line before the mark. That gives the whole number.
2. Count the sixteenth spaces from that inch line to the mark.
3. Write the count over 16. That is the fraction part.
4. Put the fraction in lowest terms (Section 4.3 shows how).

Textbook p.57 · Four steps for rereading a mark from the last whole inch.

Textbook Chapter 4 pp.56–63

Spot the mistake. Explain the correction.

A Shape Canvas rectangle looks longer after zooming. Should its paper-strip dimension increase?

Discuss the method before checking the answer.

No. Zoom changes the display size. Use the unchanged written dimension label to mark the strip.

Textbook Chapter 4 pp.56–63

Work together

Use the four values in 4A question 3 to mark and label a paper strip; partners verify each mark.

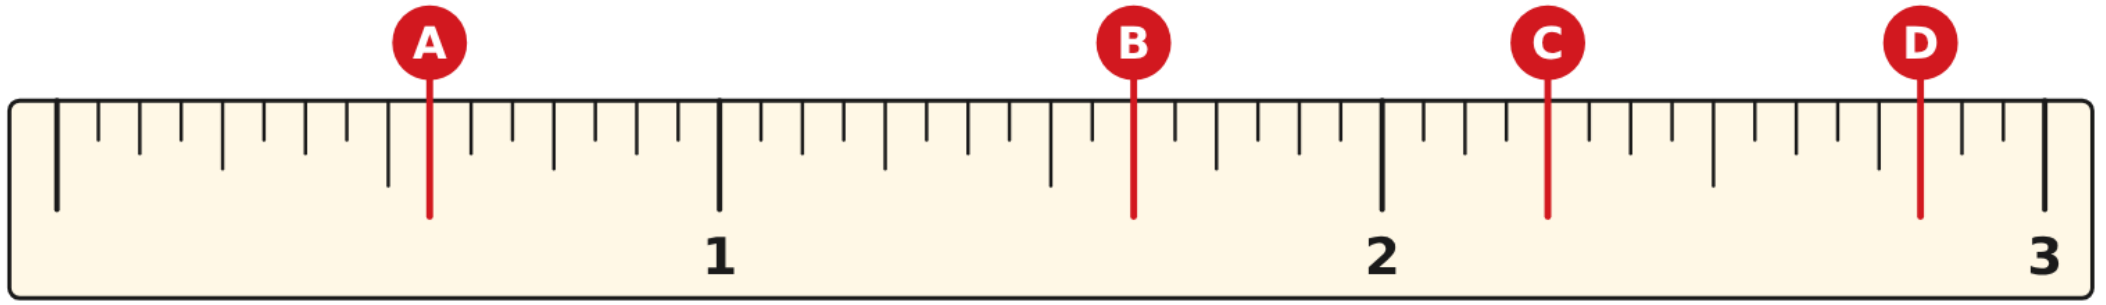

Work in pairs; alternate solver and checker.

Resources: Exercise Book 4A Q3 (p.25), Q8–11 (p.26)

Textbook Chapter 4 pp.56–63

Guided practice | 4A Q3

Read marks A, B, C and D to the nearest $\frac{1}{16}$ in.

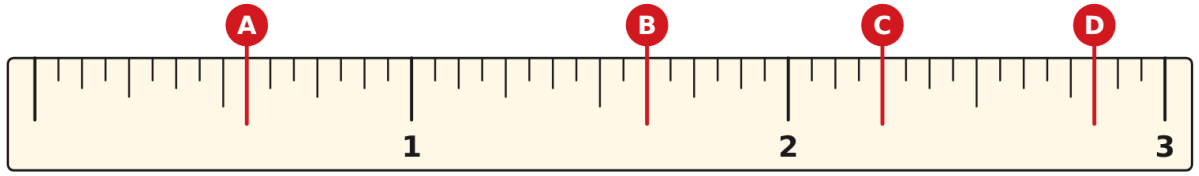

Work with a partner. Take turns explaining the next step.

Textbook Chapter 4 pp.56–63

Compare your method | 4A Q3

Read marks A, B, C and D to the nearest $\frac{1}{16}$ in.

CHECK TOGETHER

A: 9/16 in, B: 1 5/8 in, C: 2 1/4 in, D: 2 13/16 in

Textbook Chapter 4 pp.56–63

Your scheduled practice

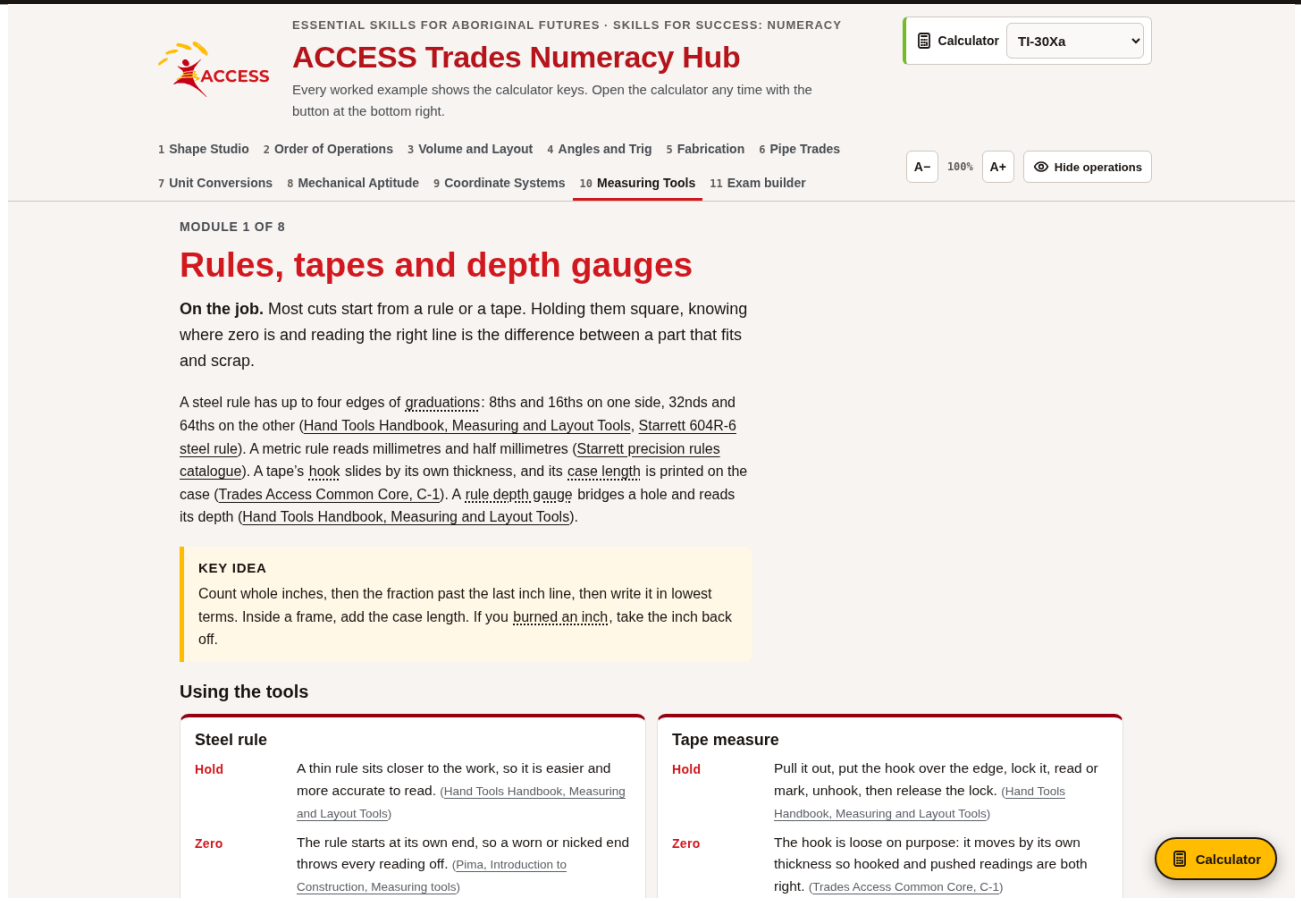

Create four dimension labels from questions 8–11, then mark them on paper. Compare readings, circle disagreements and correct them with a written reason.

Show working and units; estimate, then check.

Resources: Exercise Book 4A Q3 (p.25), Q8–11 (p.26)

Textbook Chapter 4 pp.56–63

Open Numeracy Hub

Navigation example. Use the values and units in the assigned task.

Textbook Chapter 4 pp.56–63

Practise in Shape Canvas

1. Supported: In Shape Canvas, create rectangles labelled with the four values from 4A Q3.

2. Independent practice: Use the labels and an actual rule to mark a paper strip from one start point.

3. Independent checking: Exchange strips, reread from zero and explain any corrected disagreement.

Textbook Chapter 4 pp.56–63

Practise from the Exercise Book | 4A Q8

Which is longer, $\frac{9}{16}$ in or $\frac{5}{8}$ in? By how much?

Write the operation, working and units before checking.

Textbook Chapter 4 pp.56–63

Practise from the Exercise Book | 4A Q9

Put in order from smallest: $\frac{13}{32}$, $\frac{3}{8}$, $\frac{7}{16}$.

Write the operation, working and units before checking.

Textbook Chapter 4 pp.56–63

Check independently

Read two partner-created marks and simplify 14/32 and 36/64.

Answer independently and show the method.

Resources: Exercise Book 4A Q3 (p.25), Q8–11 (p.26)

Textbook Chapter 4 pp.56–63

Wrap up and choose the next step

Share one learning point and one skill to practise next.

Record a takeaway and next action.

Resources: Exercise Book 4A Q3 (p.25), Q8–11 (p.26)

Textbook Chapter 4 pp.56–63

Break

10:15 AM–10:30 AM

Return ready for: Fraction foundations checkpoint

This break is excluded from teaching minutes.

Fraction foundations checkpoint

Today’s goal: Independently read, simplify, compare and convert fractions before progressing to operations.

Name one use for today’s skill.

Textbook Chapter 4 pp.56–63

Exercise Book 4A Q3,6,8,10–11 (pp.25–26)

Keep your notebook, textbook, exercise book and chosen calculator ready.

Textbook Chapter 4 pp.56–63

Recall and reconnect

Take a moment to name the fraction skill they find hardest; review the meaning of simplest form.

Try first without displayed answers.

Resources: Exercise Book 4A Q3,6,8,10–11 (pp.25–26)

Textbook Chapter 4 pp.56–63

Show the reading and the number form

1 For a tape mark, record the whole inches, fractional spaces and unit.

2 For simplification, divide numerator and denominator by the same factor.

3 For a mixed number, account for all whole units before writing an improper fraction.

4 Keep enough working to distinguish a reading error from a conversion error.

Textbook Chapter 4 pp.56–63

Use a checkpoint to locate the next practice need

1. Complete the assigned questions before displaying answers.
2. Sort errors into reading, simplifying, comparing or converting.
3. Explain the mistaken step before attempting a fresh example of that type.
4. A fresh unprompted solution shows whether the correction is understood.

Textbook Chapter 4 pp.56–63

Show the method on different examples

Simplify: 12/16 = 3/4
Compare: 3/8 = 6/16, so 7/16 is longer by 1/16
Convert: 2 1/4 = 9/4

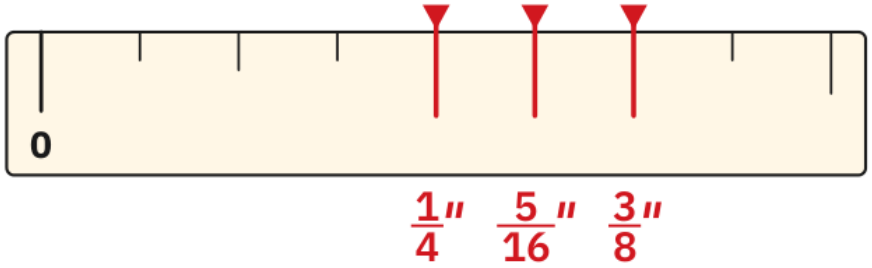

For a tape reading: identify whole inches, count spaces and simplify. Use a fresh mark on an actual rule.

Together
Use fraction strips to explain equivalence. Clarify directions and units without giving the checkpoint answers.

Textbook | page 61

Example 4.5 Putting sizes in order

Three bolts have diameters of $\frac{3}{8}$ in, $\frac{5}{16}$ in and $\frac{1}{4}$ in. List them from smallest to largest.

SOLUTION

1. Change each to sixteenths: $\frac{3}{8} = \frac{6}{16}$, $\frac{5}{16}$ stays as it is, and $\frac{1}{4} = \frac{4}{16}$.
2. Put the numerators in order: 4, 5, 6.
3. The rule shows the same order from left to right.

Answer $\frac{1}{4}, \frac{5}{16}, \frac{3}{8}$

Textbook p.61 · Different-number preparation: compare and order sizes.

Textbook | page 61

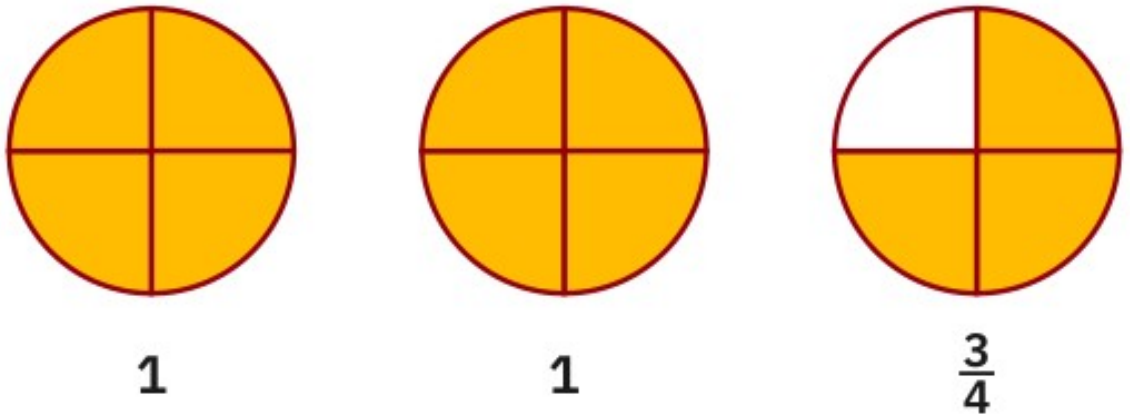

Figure 4.8 Eleven quarters make 2 whole circles and 3 quarters more: $\frac{11}{4} = 2\frac{3}{4}$.

Textbook p.61 · Figure 4.8: eleven quarters are two wholes and three quarters.

Spot the mistake. Explain the correction.

A learner simplifies 12/16 to 3/16 by dividing only the numerator. Has the value stayed the same?

Discuss the method before checking the answer.

No. Divide both numerator and denominator by 4: 12/16 = 3/4.

Textbook Chapter 4 pp.56–63

Work together

Use fraction strips to explain equivalence; clarify question directions and required units.

Work in pairs; alternate solver and checker.

Resources: Exercise Book 4A Q3,6,8,10–11 (pp.25–26)

Textbook Chapter 4 pp.56–63

Your scheduled practice

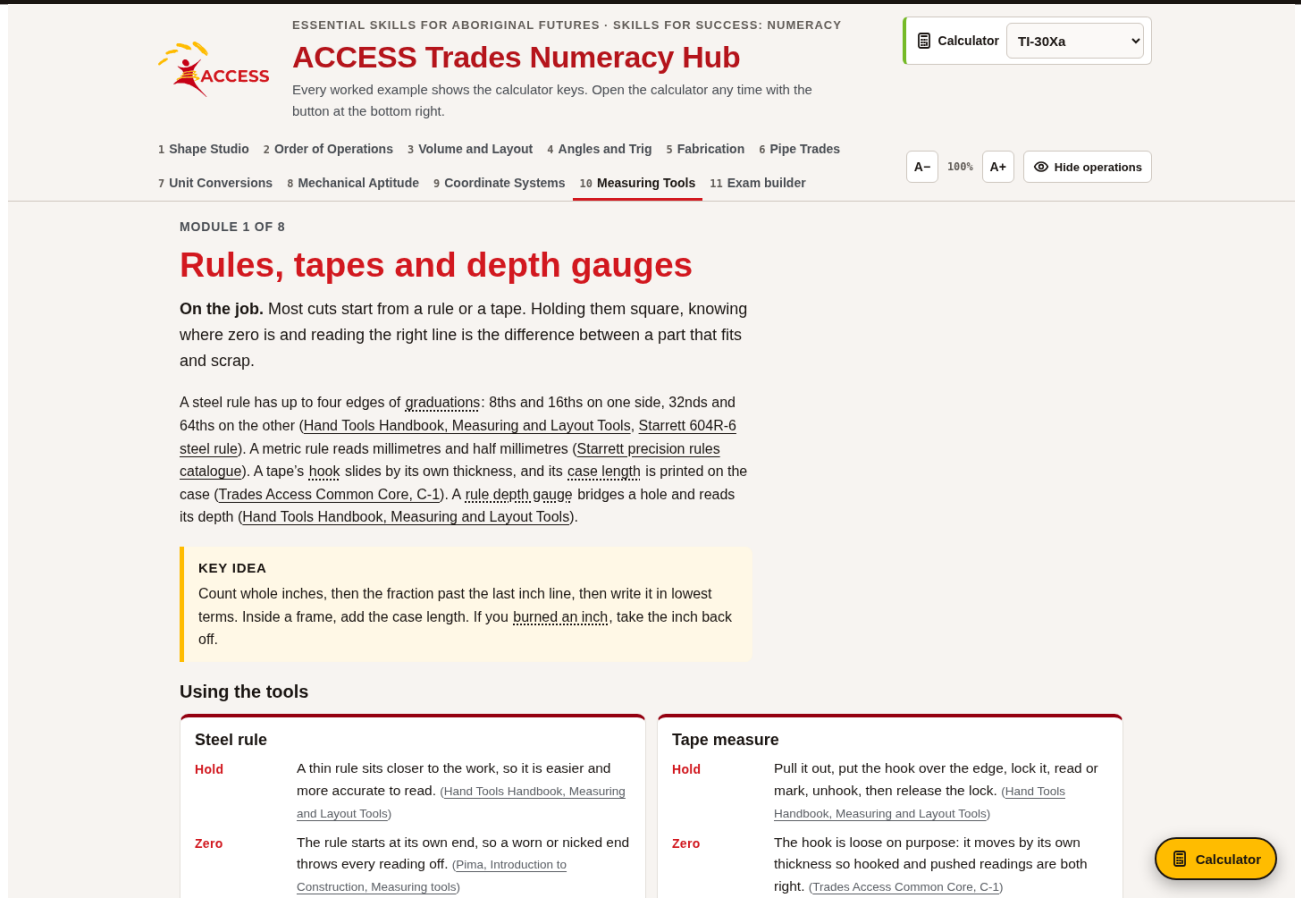

Complete 4A questions 3,6,8,10–11 independently. Check, sort errors by reading or number form, and redo missed types with partner-created examples.

Show working and units; estimate, then check.

Resources: Exercise Book 4A Q3,6,8,10–11 (pp.25–26)

Textbook Chapter 4 pp.56–63

Open Numeracy Hub

Navigation example. Use the values and units in the assigned task.

Textbook Chapter 4 pp.56–63

Practise in Shape Canvas

1. Independent first attempt: Use paper and a rule for 4A Q3,6,8,10–11 without displayed answers.

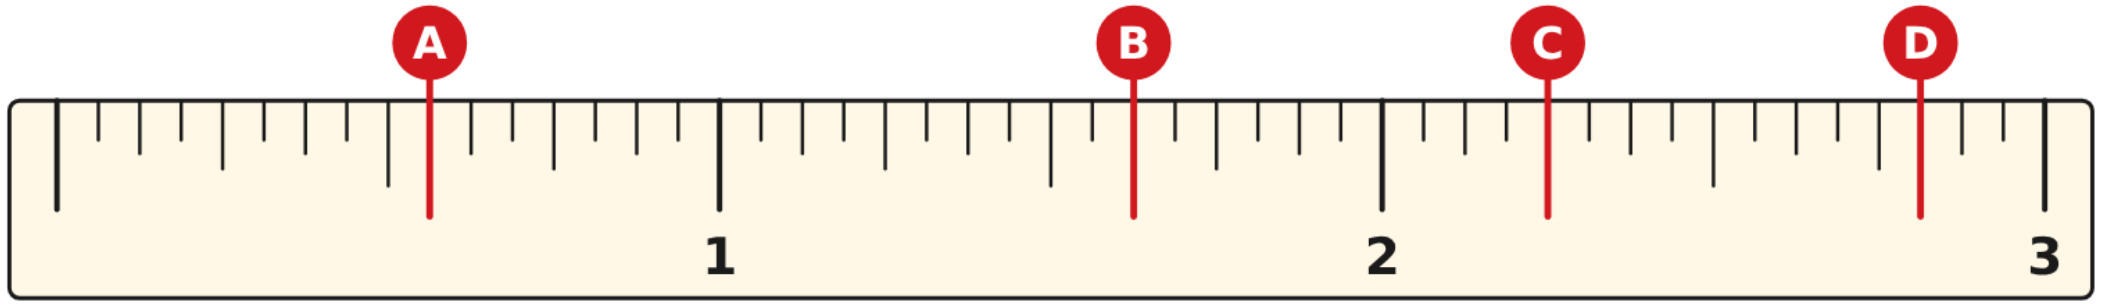

2. Checking after completion: Use the chosen calculator or rule to locate and explain one error.

3. Independent retry: Rebuild one corrected dimension in Shape Canvas, then solve a fresh missed type.

Textbook Chapter 4 pp.56–63

Practise from the Exercise Book | 4A Q3

Read marks A, B, C and D to the nearest $\frac{1}{16}$ in.

Write the operation, working and units before checking.

Textbook Chapter 4 pp.56–63

Practise from the Exercise Book | 4A Q6

Write $\frac{14}{32}$ and $\frac{36}{64}$ in lowest terms.

Write the operation, working and units before checking.

Textbook Chapter 4 pp.56–63

Check independently

Redo one missed type without prompts and explain how the check shows it is correct.

Answer independently and show the method.

Resources: Exercise Book 4A Q3,6,8,10–11 (pp.25–26)

Textbook Chapter 4 pp.56–63

Wrap up and choose the next step

Share one learning point and one skill to practise next.

Record a takeaway and next action.

Resources: Exercise Book 4A Q3,6,8,10–11 (pp.25–26)

Textbook Chapter 4 pp.56–63
