Fraction operations: check and retry

Day 09 • 2026-11-10 • 2:15 PM–3:30 PM

15 questions. Show your method and include units. For multiple choice, enter A, B, C or D. Follow your instructor’s calculator guidance.

Name _____ **Date** _____

Type into the fields and save a copy, or print and write.

01 READ & REASON

Which order best uses Numeracy Hub to correct a fraction error?

A. Copy the displayed result before attempting

B. Attempt on paper, check, explain the error, then retry

C. Skip units and keep only decimals

D. Change numbers until the calculator agrees

Numeracy Hub

Choice (A–D) _____ **Working / reason** _____

Textbook Chapter 4 pp.97–107

Fraction operations: check and retry

Day 09 • 2026-11-10 • 15 questions

02 Which operation finds an offcut from a known stock length and used length?

A. Multiplication
B. Addition
C. Squaring
D. Subtraction

Choice (A–D)

Working / reason

Textbook Chapter 4 pp.97–107

03 Which operation finds the total for five identical pieces?

A. Multiplication
B. Square root
C. Adding denominators
D. Subtraction

Choice (A–D)

Working / reason

Textbook Chapter 4 pp.97–107

04 Which operation finds each of four equal gaps in a known total free space?

A. Multiplication by 4
B. Subtraction of 4
C. Addition of 4
D. Division by 4

Choice (A–D)

Working / reason

Textbook Chapter 4 pp.97–107

Fraction operations: check and retry

Day 09 • 2026-11-10 • 15 questions

05 Which fraction is the lowest-term form of 6/8?

A. 2/4
B. 6/4
C. 3/4
D. 3/8

Choice (A–D)

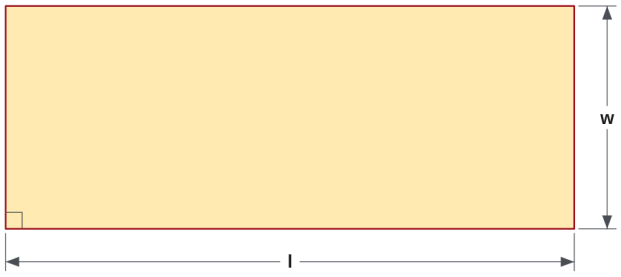

Working / reason

Textbook Chapter 4 pp.97–107

06 CALCULATE

Use the pictured 18 1/2 in long side and 7 1/4 in short side. Find their sum in inches.

l = 18½ in w = 7¼ in

Shape Canvas

Answer (in)

Working / reason

Textbook Chapter 4 pp.97–107

Fraction operations: check and retry

Day 09 • 2026-11-10 • 15 questions

07 Use the pictured 18 1/2 in long side and 7 1/4 in short side. Find their difference in inches.

l = 18½ in **w = 7¼ in**

Shape Canvas

Answer (in)

Working / reason

Textbook Chapter 4 pp.97–107

08 Evaluate 2 3/8 + 1 7/8.

Answer

Working / reason

Textbook Chapter 4 pp.97–107

09 Evaluate 7 1/4 − 2 5/8.

Answer

Working / reason

Textbook Chapter 4 pp.97–107

Fraction operations: check and retry

Day 09 • 2026-11-10 • 15 questions

10 Evaluate 3 × 1 5/6.

Answer

Working / reason

Textbook Chapter 4 pp.97–107

11 APPLY & CHECK

A learner writes 1/2 + 1/3 = 2/5. Which correction is valid?

A. 2/6 × 5/6 = 10/36

B. 3/6 + 2/6 = 5/6

C. 1/6 + 1/6 = 2/6

D. 2/5 is already correct

Choice (A–D)

Working / reason

Textbook Chapter 4 pp.97–107

12 A 28 in strip needs three 6 1/2 in pieces. Ignore kerf. Find the offcut.

Answer (in)

Working / reason

Textbook Chapter 4 pp.97–107

13 A learner answers 2 for 4 ÷ 1/2. Which explanation corrects the work?

A. Eight halves fit into 4, so the answer is 8

B. Add the denominator to 4

C. 4 divided by anything is 2

D. The correct answer is 1/8

Choice (A–D)

Working / reason

Textbook Chapter 4 pp.97–107

Fraction operations: check and retry

Day 09 • 2026-11-10 • 15 questions

14 A missing section plus 4 7/8 in must total 13 1/4 in. Find the missing section.

Answer (in)

Working / reason

Textbook Chapter 4 pp.97–107

15 Your result for a remaining length is 9 3/8 in. What is the most useful written correction record?

A. A different question with no explanation

B. Only the final answer

C. Only a calculator photograph

D. The incorrect step, the corrected step, and a reverse-operation check

Choice (A–D)

Working / reason

Textbook Chapter 4 pp.97–107
