Fraction cut lists, centre lines and kerf

Day 10 • 2026-11-16 • 2:15 PM–3:30 PM

15 questions. Show your method and include units. For multiple choice, enter A, B, C or D. Follow your instructor’s calculator guidance.

Name _____ **Date** _____

Type into the fields and save a copy, or print and write.

01 READ & REASON

What should be entered in Numeracy Hub to check total saw loss?

A. Number of actual cuts × kerf per cut

B. Kerf minus piece length

C. Stock length ÷ kerf only

D. Number of pieces + kerf

Numeracy Hub

Choice (A–D) _____ **Working / reason** _____

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

Fraction cut lists, centre lines and kerf

Day 10 • 2026-11-16 • 15 questions

02 Four pieces are cut one at a time from a longer board, leaving an offcut. How many cuts are made?

A. 4
B. 3
C. 5
D. 8

Choice (A–D) | **Working / reason**

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

03 A stock length is split into four pieces using only the three internal separating cuts. How many kerfs are counted?

A. 5
B. 3
C. 4
D. 2

Choice (A–D) | **Working / reason**

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

04 Which expression finds the centre of a 19 1/4 in length?

A. 19 1/4 × 2
B. 19 1/4 + 2
C. 19 1/4 ÷ 2
D. 19 1/4 − 2

Choice (A–D) | **Working / reason**

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

Fraction cut lists, centre lines and kerf

Day 10 • 2026-11-16 • 15 questions

05 Which expression gives stock used for three 5 1/2 in pieces and three 1/8 in kerfs?

A. 3 × 5 1/2 + 3 × 1/8

B. 3 × 5 1/2 − 3 × 1/8

C. 3 × (5 1/2 − 1/8)

D. 5 1/2 + 1/8

Choice (A–D)

Working / reason

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

06 CALCULATE

The pictured short side is 7 1/4 in. Cut three pieces of that length from stock, leaving an offcut. Each of the three cuts removes 1/8 in. Find total stock used.

l = 18½ in **w = 7¼ in**

Shape Canvas

Answer (in)

Working / reason

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

Fraction cut lists, centre lines and kerf

Day 10 • 2026-11-16 • 15 questions

07 Find the centre of the pictured 18 1/2 in long side, measured from one end.

l = 18½ in **w = 7¼ in**

Shape Canvas

Answer (in) **Working / reason**

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

08 Five cuts each remove 3/32 in. Find the total saw loss.

Answer (in) **Working / reason**

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

09 Four pieces are each 8 3/8 in. Find their total finished length before kerf.

Answer (in) **Working / reason**

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

Fraction cut lists, centre lines and kerf

Day 10 • 2026-11-16 • 15 questions

10 A 36 in stock piece provides four 8 3/8 in pieces and four 1/8 in kerfs. Find the offcut.

Answer (in)

Working / reason

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

11 APPLY & CHECK

A 48 in strip supplies five 9 1/4 in pieces with five 1/8 in cuts, leaving an offcut. Find the offcut.

Answer (in)

Working / reason

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

12 A 60 in strip supplies six 9 3/4 in pieces with six 3/32 in cuts. Find the length left over.

Answer (in)

Working / reason

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

Fraction cut lists, centre lines and kerf

Day 10 • 2026-11-16 • 15 questions

13 A learner subtracts the kerf from the finished-piece total to find required stock. What is the error?

A. The number of pieces should be subtracted

B. Kerf consumes stock and must be added to the finished total

C. Finished lengths must be doubled

D. Kerf should always be zero

Choice (A–D)

Working / reason

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

14 A centre line lies 11 5/16 in from each end. Find the total uncut length.

Answer (in)

Working / reason

Textbook sections 4.7 pp.100–107; fraction worksheets pp.108–110

15 Which result proves that 24 in stock cannot supply three 8 in pieces with three 1/8 in cuts?

A. The three cuts remove 3 in

B. The finished lengths total 8 in

C. The requirement is 24 3/8 in

D. The requirement is 23 5/8 in

Choice (A–D)

Working / reason
