Perimeter, frame lengths and material totals

Day 17 • 2026-11-27 • 9:00 AM–10:15 AM

15 questions. Show your method and include units. For multiple choice, enter A, B, C or D. Follow your instructor’s calculator guidance.

Name _____ **Date** _____

Type into the fields and save a copy, or print and write.

01 READ & REASON

What does perimeter measure?

A. The surface covered inside

B. The space contained in a solid

C. The diagonal length only

D. The length around the outside boundary

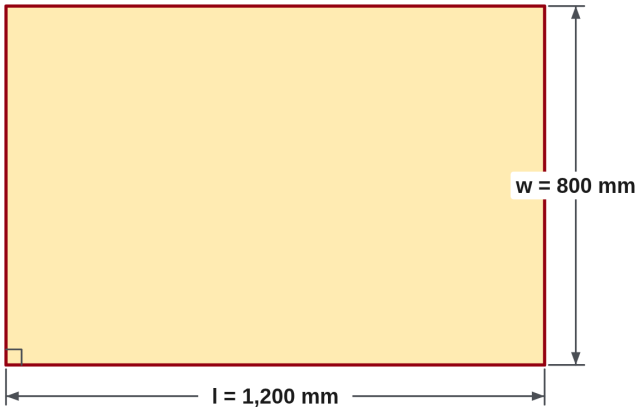

Choice (A–D) _____ **Working / reason** _____

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

Perimeter, frame lengths and material totals

Day 17 • 2026-11-27 • 15 questions

02 Find the perimeter of the 1200 mm by 800 mm Shape Canvas rectangle.

Shape Canvas

Answer (mm)

Working / reason

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

Perimeter, frame lengths and material totals

Day 17 • 2026-11-27 • 15 questions

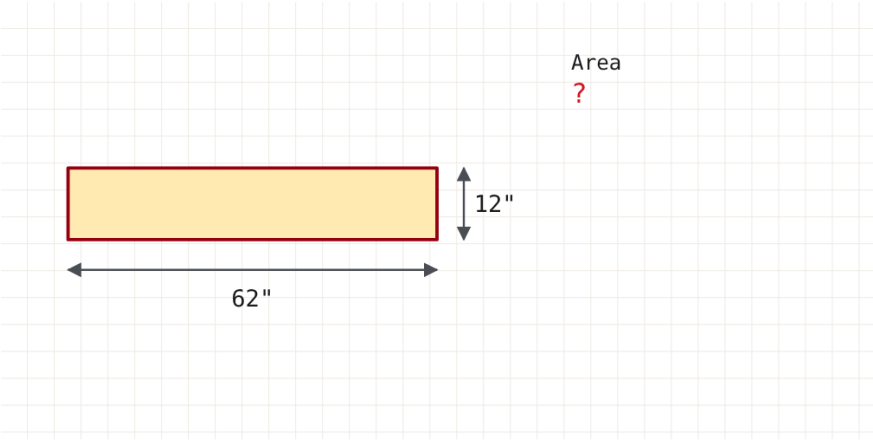

03 In the Numeracy Hub area/perimeter illustration, should an internal dividing line be counted in the outside perimeter?

A. Only if it is dashed

B. No; only outside boundary segments count

C. Yes; every visible line counts

D. Yes; count it twice

Numeracy Hub

Choice (A–D)

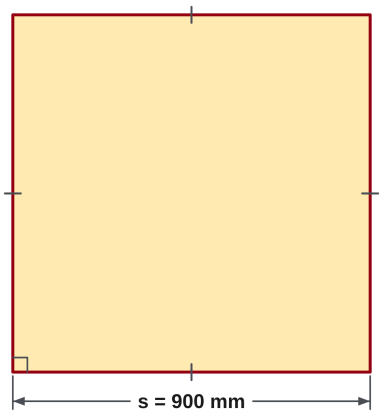

Working / reason

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

Perimeter, frame lengths and material totals

Day 17 • 2026-11-27 • 15 questions

04 Find the perimeter of the 900 mm side-length Shape Canvas square.

Shape Canvas

Answer (mm)

Working / reason

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

05 Which unit is appropriate for a frame’s perimeter?

A. mm²

B. mm³

C. Percent

D. mm

Choice (A–D)

Working / reason

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

06 CALCULATE

Find the perimeter of a rectangle 4.8 m long and 2.5 m wide.

Answer (m)

Working / reason

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

Perimeter, frame lengths and material totals

Day 17 • 2026-11-27 • 15 questions

07 A rectangle has perimeter 34 m and length 11 m. Find its width.

Answer (m) | **Working / reason**

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

08 A square has perimeter 5200 mm. Find one side.

Answer (mm) | **Working / reason**

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

09 A five-sided outline has sides 900, 600, 450, 700 and 550 mm. Find its perimeter.

Answer (mm) | **Working / reason**

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

10 A rectangular room is 6 m by 4 m. Find the skirting length after excluding a 0.9 m doorway.

Answer (m) | **Working / reason**

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

Perimeter, frame lengths and material totals

Day 17 • 2026-11-27 • 15 questions

11 APPLY & CHECK

A learner finds 5 × 3 = 15 m for the perimeter of a 5 m by 3 m rectangle. What went wrong?

A. They forgot only the units

B. They counted too many corners

C. They should have divided by 2

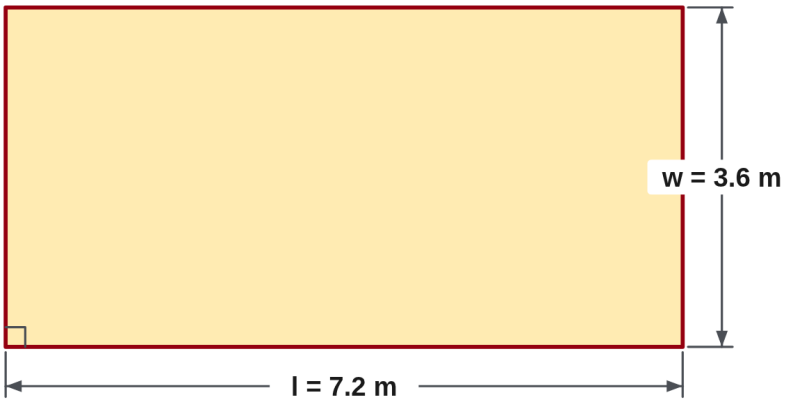

D. They used the area operation instead of adding boundary lengths

Choice (A–D)

Working / reason

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

12 A 7.2 m by 3.6 m floor needs trim around all four sides. Stock comes in 3 m lengths. Ignoring joins and cuts, what is the minimum whole number of lengths by total length?

Shape Canvas

Answer (lengths)

Working / reason

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

Perimeter, frame lengths and material totals

Day 17 • 2026-11-27 • 15 questions

13 Two rectangles have the same area. Must their perimeters be the same?

A. Yes; all rectangles have four sides

B. No; different proportions can give different perimeters

C. Yes; area determines perimeter

D. Only when measured in mm

Choice (A–D)

Working / reason

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

14 An L-shaped outline has six boundary lengths: 6, 2, 2, 2, 4 and 4 m. Find its perimeter.

Answer (m)

Working / reason

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229

15 Which check helps prevent counting a boundary segment twice?

A. Add every number on the page

B. Include all diagonals

C. Multiply the longest side by four

D. Trace the outside from one corner back to the same corner

Choice (A–D)

Working / reason

Textbook sections 9.1 pp.220–221; sections 9.6 pp.228–229
