Area and material coverage

Day 18 • 2026-11-30 • 12:45 PM–2:00 PM

15 questions. Show your method and include units. For multiple choice, enter A, B, C or D. Follow your instructor’s calculator guidance.

Name _____ **Date** _____

Type into the fields and save a copy, or print and write.

01 READ & REASON

What does area measure?

A. The distance around the boundary

B. The length of the longest side

C. The capacity of a container

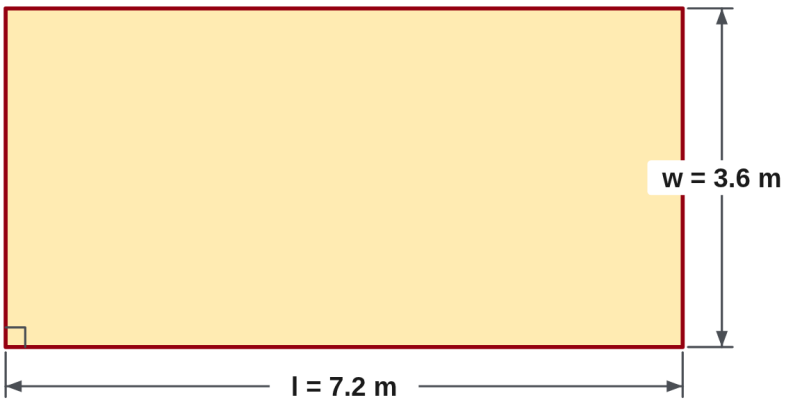

D. The surface covered inside a boundary

Choice (A–D) _____ **Working / reason** _____

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

02

Find the area of the 7.2 m by 3.6 m Shape Canvas floor.

Shape Canvas

Answer (m²) _____ **Working / reason** _____

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

Area and material coverage

Day 18 • 2026-11-30 • 15 questions

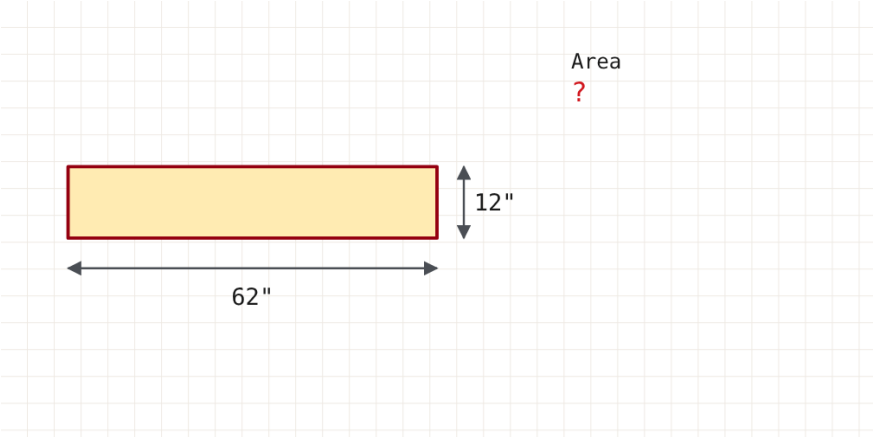

03 The Numeracy Hub area/perimeter visual shows a rectangle. Which operation finds area?

A. Divide length by width

B. Multiply length by width

C. Add all four sides

D. Double only the length

Numeracy Hub

Choice (A–D)

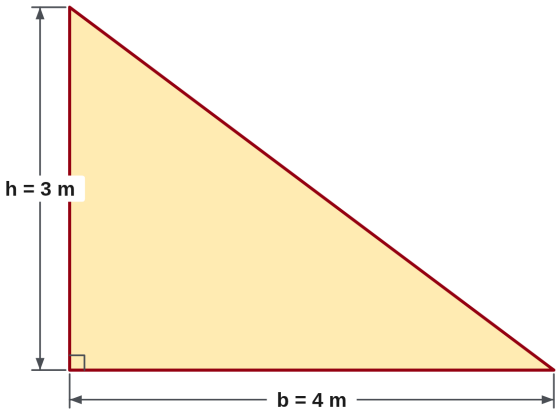

Working / reason

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

Area and material coverage

Day 18 • 2026-11-30 • 15 questions

04 Use the Shape Canvas right triangle with base 4 m and perpendicular height 3 m. Find its area.

Shape Canvas

Answer (m²)

Working / reason

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

05 Which height belongs in A = b × h / 2?

A. Any sloping side

B. The perimeter

C. The longest side regardless of direction

D. The perpendicular distance from base to opposite vertex

Choice (A–D)

Working / reason

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

Area and material coverage

Day 18 • 2026-11-30 • 15 questions

06 CALCULATE

A rectangular panel is 2.4 m by 1.2 m. Find its area.

Answer (m²) | **Working / reason**

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

07

A triangular panel has base 1500 mm and perpendicular height 800 mm. Find its area in mm².

Answer (mm²) | **Working / reason**

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

08

Convert 750000 mm² to m².

Answer (m²) | **Working / reason**

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

09

A floor is 4.5 m by 3.2 m. One tile covers 0.36 m². How many tiles cover the area exactly, ignoring cuts?

Answer (tiles) | **Working / reason**

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

Area and material coverage

Day 18 • 2026-11-30 • 15 questions

10 A wall is 3200 mm long and 2.4 m high. Find its area in m².

Answer (m²)

Working / reason

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

11 APPLY & CHECK

A student records a 3 m by 4 m floor as 12 m. What is wrong?

A. The answer must be 7

B. The operation must be division

C. The dimensions must be doubled

D. The area unit must be m²

Choice (A–D)

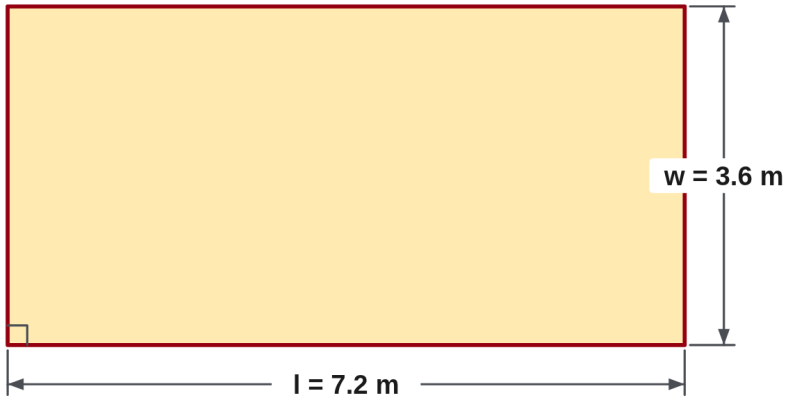

Working / reason

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

Area and material coverage

Day 18 • 2026-11-30 • 15 questions

12 A floor needs 25.92 m² of coverage. Each sheet covers 2.88 m². How many sheets are required by area, ignoring cuts?

Shape Canvas

Answer (sheets)

Working / reason

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

13 A triangle’s base is horizontal. Which labelled measure should be used as its height?

A. The horizontal base again

B. A line perpendicular to that base

C. The longest sloping edge

D. Half the perimeter

Choice (A–D)

Working / reason

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

Area and material coverage

Day 18 • 2026-11-30 • 15 questions

14 A room has area 16 m². Add 5% allowance for coverage. Find the total area to plan for.

Answer (m²)

Working / reason

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172

15 A calculation divides mm² by 1000 to convert to m². What factor is needed instead?

A. Multiply by 1000

B. Divide by 100

C. Multiply by 1000000

D. Divide by 1000000

Choice (A–D)

Working / reason

Textbook sections 10.1–10.3 pp.242–245; sections 7.4 pp.170–172
